

CRC Task Force Notes: 1/28/2021

- **Welcome and Brief Historical Update**
 - What happened to our work before COVID?
 - Katie briefly updated the group on the status of committees, our original plan a comprehensive campaign in March 2020, and what the potential plans are moving forward.
 - The Task Force plans to continue to meet virtually for the foreseeable future and will try to narrow focus to one or two projects.
 - Activity and action plans will be a priority in 2021.
- **“State” of the State**
 - Where are we now?
 - Katie discussed the overall conversation around limited screening throughout the pandemic.
- **Boots on the Ground**
 - What is happening currently with CRC Screening?
 - Katie discussed how we could utilize our Task Force to combine efforts and refocus on helping return patients to screening
- **Getting Back to Work**
 - Where do we go from here?
 - The group discussed the need for focus on “Safe Return to Care” models in our messaging moving forward.
 - Questions were raised about the usefulness of certain messaging campaigns like “go back and get screened” because of the uncertainty of clinic capacity to do certain screening tests like colonoscopies.
 - The group concluded that providing information on safely returning to care as it relates to CRC should be our focus for March 2021.
 - Task Force will aim to meeting again in the Spring, April/May.
