Subject: Save Fauntleroy Cove, a West Seattle gem!

We're counting on you! I am requesting you respond via email to my request: Please do NOT allow Washington State Ferries to expand the Fauntleroy Ferry Dock and destroy Fauntleroy Cove (Children's Cove) or impact this park and its salmon stream anytime during and after construction. I am also asking you to support Resolution #29566, passed by the Seattle City Council.

Fauntleroy Cove (aka Children's Cove) is one of the places that make our city special. But now this family-friendly, natural gem is under threat due to a misguided possibility that the Washington Ferry System will pave over the park. This is a recipe for disaster, something the city will regret for years to come.

This is NOT a NIMBY issue. I and many other opponents don't live right near the cove, but we love visiting it for short walks, playtime, and birdwatching. People of all ages and income levels appreciate Fauntleroy Cove. I myself am far from wealthy! With so many of our natural places disappearing, air pollution increasing due to traffic congestion, and our environment on the brink, we must keep the cove as is.

This is crucial for the salmon stream and for other marine life, as well as for everyone who enjoys the cove. We owe it to our kids!

I hope to hear from you soon regarding your stance on this matter. I'm hoping for your support.

Sincerely,

Arlene Roth, a voter with a voice
